

DM2 has been training leaders in Bolivia for seven years now. In fact, Bolivia was where DM2 began. Bolivia was chosen as the launching pad because it was one of the poorest countries in South America. If making disciple-makers worked in Bolivia, it could work anywhere. We have not been disappointed.

The initial twelve men Jesus chose to be responsible for spreading the gospel to the world were just ordinary men, not wealthy or educated by human standards. But Jesus had taught them and He said He would go with them to the ends of the earth. Because of the faithfulness of these twelve men, two thousand years later the church of Jesus Christ continues to grow.

The Bolivians as well took Jesus' command to go into all the world seriously. They trusted God and moved ahead. First they took what they were taught to their families and churches. Then they began to reach out to other countries like Paraguay, Peru and Mexico.

DM2's initial contact was Roberto Morales, the pastor of Peniel Church in Los Negros. From the beginning, Roberto has served as the DM2 regional ministry director in Bolivia. Peniel Church in Los Negros hosts the primary bi-annual DM2 workshops.

The following is a report from Roberto concerning a recent DM2 workshop he, along with some of the believers from his church, taught in the city of Sucre, Bolivia.

DM2 BOLIVIA WORKSHOP REPORT

by Roberto Morales

I want to thank God for the work He continues to do through each of us and at the same time express my sincere greetings to all who are part of the DM2 ministry.

After concluding the workshop of Daniel at Peniel Church in Los Negros and Romans and 1 Corinthians 1-8 in the town of Tarija, we began to pray as a church for Sucre, since there was a possibility of doing a workshop in this city through a contact God provided.

It was quite an experience and challenge for those of us who went to Sucre. At first there were going to be 20 to 30 students, but as time went by the number of expected participants grew. Before long, Pastor David Lamadrid informed us that interest was increasing and there were now between 30 and 40 coming. Then there were 60 and then 100!

As we were leaving the church in Los Negros, after the believers prayed for us, Pastor David sent the final message that there were 135 people registered for the workshop.

It was quite a blessing because we got to share the book of Romans with all these believers who had always been taught they could lose their salvation. It was very impacting to clear up their bad understanding on the issue of eternal security. They had never learned these truths and their hearts overflowed.

The time of questions and answers was hard. Their world was being turned upside down. They were convicted, not by us, but by the Word of God.

This was the first time we ever did the whole book of Romans in a week. We started Monday at seven in the morning and went until nine at night. After that began the questions, which lasted till 11 o'clock, after which groups gathered around tables and continued to visit. Finally, in our rooms we spent time praying as a team. This was the rhythm from Monday to Saturday. It was a bit exhausting.

The teaching team consisted of four teachers from Peniel Church, along with myself and another pastor. For the teachers from Peniel, this was their first workshop.

Pray for the church in Sucre, Temple of Faith. Pray for the pastors who attended the workshop. They will need wisdom and understanding to answer the questions that always come up after a workshop. Pray also that these pastors will be able to review the material in their respective churches.

Pray for Peniel Church that we will be able to finish the roof on the building where we hope to meet for the July workshop on Timothy and Titus.

Many blessings to all my brothers and sisters in Christ who support DM2 through prayer and finances. May God prosper your lives and those of your family and friends! From the heart of South America Bolivia.
